

# How much space does my plant need to grow?

Your plant will be more than happy to continue to grow in the grow bag that we gave you. If you want to grow other plants in your grow bag once this plant dies or want to have more than one grow bag, it's important to know what size grow bag your plant needs.

The table below lists required container sizes for a variety of plants. Root vegetables (carrots, beets, onions) will require deeper bags or gallons at a minimum of 7 gallons.

Plant	Size
Arugula	1 gallon
Beans, bush	2 gallons
Beans, pole	5 gallons
Beets	5 gallons
Broccoli	5 gallons
Carrots	5 gallons
Cabbage	5 gallons
Swiss Chard	1 gallon

Plant	Size
Collard Greens	5 gallons
Cucumber	5 gallons
Eggplant	5 gallons
Kale	5 gallons
Lettuce	1 gallon
Green onion	1 gallon
Peas	2-5 gallons
Pepper, bell	5 gallons

Plant	Size
Pepper, hot	5 gallons
Radish	5 gallons
Squash	5 gallons
Tomato	5 gallons
Tomato, cherry	5 gallons
Turnip	5 gallons
Zucchini	5 gallons
